Job responsibilities include, but are not limited to:

- Spread, mark, cut and bundle fabric panels for production sewing line
- Troubleshooting solutions and recommending the best methods and materials to complete each task
- Maintaining equipment, including cleaning, oiling and daily machine maintenance
- Inventory of raw materials
- Paying close attention to detail and accuracy of work
- Consistent quality and workmanship

Knowledge, skills and ability:

- Ability to lift 50 lbs.
- Ability to work in a fast-paced environment with little error
- Ability to stand, bend and stretch for 8 hours a day
- Must have good organizational skills
- Must have good time management skills
- Must be detail oriented
- Must have legible handwriting
- Ability to read measurements from a ruler
- Ability to read and convert measurements to fractions
- Must be able to perform basic math functions
- Ability to distinguish between colors
- Must be able to work and learn independently
- Strong written and verbal communication skills are a must

Qualifications:

- High school degree or equivalent
- 3+ years of Industrial fabric cutting experience
- Industrial sewing experience is preferred
- Good work ethic and positive attitude are a must
- Passion to make a difference
